SURPRISE VALLEY NOTES. — From W. B. King, of Surprise valley, we learn that Captain Wagner's cavalry forces had not left Camp Bidwell up to last Friday morning. This will account for the non-appearance of these troops at White Horse, in Humboldt county, as anticipated by the Silver State. It is highly probable that our telegraphic reports from the Bannock seat of war are not wholly reliable, and are often grossly exaggerated. Mr. King says that the crops in Surprise valley have never been as large as they will be this year. Much new ground has been cultivated, thus increasing the area planted, while the large quantity of snow which fell in the mountains west of the valley will give an abundant supply of water. He says that there will be about an equal amount of wheat, barley and oats raised; also an unusual amount of hay. Surprise valley will supply a larger number of cattle for the market next year than it has the past year. Again is presented the old complaint of the irregular receipt of mail matter. When will the new line of stages be started? Improved postal communication with Surprise valley is greatly needed.

GONE FROM OUR GAZE. — The Chief of this paper regaleth himself to-day, on the unshaded slopes of the Comstock. He will sling his accustomed amount of ink or graphite to-morrow, and yet, who can tell what a day may bring forth. This morning he arose remarkably early, and on the morrow he may be asleep under some shade tree with the red ants crawling over his big feet.

NEW MACHINES. — C. W. Perry, has just received a large number of the Lion hay rakes, also a car load of Wheeler's celebrated mowers and reapers, numbers five and six. All extras for these machines. Mr. Perry keeps constantly on hand at this place. Farmers will take due notice and avail themselves of the bargain which Mr. Perry offers.

A hand organ was the misery on the streets this forenoon. A slight relief was found this afternoon in the labored notes of the ice-cream man.

Jottings.

— Stocks are a little weak to-day. Too much election yesterday.

— George Royal is ballasting the C. P. R. east and west of Reno.

— Eureka Con. pays its \$3 dividend to-day. This is genuine nutriment.

— A runaway is reported on the Geiger grade. We learned no particulars.

— The thermometer stands near ninety degrees. But to a lazy man without money, it ranges near one hundred degrees.

— If Congress has adjourned, it is no reason why our citizens should not buy those finely made shirts with collar and tie, at Cohn and Isaacs.

— There are times when the local reporter is often at his wit's end for an item. Therefore, dear friends, remember our wants, and treat us to all the news of possible interest.

— No news of importance from California in reference to yesterday's election. The Workingmen hold a very strong vote in San Francisco, if they did not carry the day in that city.

— John Sunderland, has just received a large supply of hats and caps. Special attention may be called to his race and evening caps. Give Mr. Sunderland a call and examine his stock.

— Reno never looked better than at present. The recent rains with the warm weather has caused vegetation to grow rapidly, and as all kinds of trees are in full leaf, our town looks like a garden spot.

— The case of Shoemaker vs. Hancock, is on trial to-day in the District Court. To-morrow is the day set for the trial of Ah Chouey. Messrs. Waldo & Julien, have been appointed counsel for the celestial.

— The new V. & T. train is off for repairs. It was found that the Miller platform was not adapted, without a slight change in the way of removing the corners of couplings, to the sharp curves on some parts of the line of the V. & T. road.

— Six coaches of emigrant material, in the human form, strode westward this afternoon. There is no presumption but what the east can get along without them, but it is an open question as to their being of any particular service on this coast.

— It has been suggested that a base ball club might with propriety be organized in Reno. Cool drinks would draw a better house. Athletic exercise may develop muscle but as little exercise as possible seems most desirable.

— A lively runaway was the excitement this morning on Plaza street. Several teams had a narrow escape from collision with the excited steeds. When last seen, the runaways were making excellent time for the Glendale shades. Particulars of all such items respectfully solicited at this office.

LADY PARTNER WANTED. — Mrs. F. Allenback, of Genoa, has just returned from San Francisco, where she has purchased a large stock of articles in the millinery line. Being desirous of having a partner in her business, she takes the proper course for securing such a business mate, as will be seen by our 50 cent column.

GREAT NOVELTY. — Miss C. Seltier, Reno's fashionable French milliner, keeps constantly on hand a fine stock of hats, feathers, ribbons, etc. Hats made as good as new by bleaching and pressing. Cloth pressing, stamping, and all kinds of silk embroidery promptly and neatly done. Ladies wishing to purchase the latest style of goods in my line, are invited to call and inspect my stock. I have just received from San Francisco a choice lot of goods which I selected with great care and regard to please my patrons. Therefore I know I shall please my friends, and give satisfaction to all I have their trade. Store, East side of Virginia street, Reno. 2-28

MUSIC, TARGET PRACTICE, TEN-PINS, REPRESENTATIONS. — L. Wintermantel has made still further improvements in the appointments of his summer gardens and shooting galleries. A fine Ballard rifle is now at the disposal of visitors, and the ten-pin alleys are now in the best of trim. Targets at long or short range, and polite attendants to wait upon visitors. A shady resort for the weary and heavy laden, also for the thirty who desire quenching. Pay him a visit, and the best of wines, liquors and cigars will be served to you at all times.

SPECIAL NOTICES.

MISCELLANEOUS.

FELLOWS' Compound Syrup!

—OR— HYPOPHOSPHITES.

THIS DISCOVERY

Is the result of a series of Scientific Experiments based upon the theory that "for the successful cure of Wasting Diseases, the nervous system must be made vigorous and healthy."

One of the first symptoms of disease affecting either the Liver, Lungs, Heart, Stomach, or Genital Organs, is a loss of nervous power. This is followed by muscular relaxation, weakness, and emaciation of all the organs which depend for health or involuntary muscular action, the weaker suffering first.

The inventor, acting upon this idea, that the muscles and nerves depend upon each other for efficient strength and action, and that they must be treated directly in order to speedily and permanently cure diseases of the organs which they control, became convinced, after months of experiment, that no other preparation contained so potent and direct effect upon the nervous system as his

Compound Syrup of Hypophosphites

and except in cases of actual organic loss, that it would restore patients suffering from those maladies.

Amongst the diseases overcome by the use of this remedy are the following:—

Chronic Constipation, Chronic Dyspepsia, Asthma,

Chronic Bronchitis, Consumption, Chronic Diarrhea,

Chronic Laryngitis, Melancholy, Nervous Debility.

Debility, resulting from Typhoid and other low fevers, Diphtheritic Prostration, Hyetaria, Hypochondria, Nervous Excitability, Muscular Wasting of the Muscles, Aphonia or Loss of Voice, Sluggishness of the Liver, Interrupted and Feeble Action of the Heart, Scrophulous Feelings caused by mucous obstruction of the Lungs and Air Passages leading thereto, and Debility from various causes.

Indigestion and habitual Constipation almost always arise from weakness of the muscles and nerves of the stomach and bowels. In such cases, Fellows' Compound Syrup of Hypophosphites has proved itself of the greatest service by inducing healthy peristaltic action of the intestines. The evacuations soon become copious and healthy, without producing the effect of purgative medicine.

Weakness of the JOINTS and MUSCLES, IMPURITY OF THE BLOOD, and INWARD WASTING may be cured by attention to the regular described doses, and by due regard to the habits of life.

FELLOWS' Compound Syrup of Hypophosphites

The power of arresting disease displayed by this preparation is honorably acknowledged by the medical faculty in every section where it has been introduced, and the large sale is the best guarantee of the estimation in which it is held by the public.

This syrup will cure PULMONARY CONSUMPTION in the first and second stages, will give great relief and prolong life in the third. It will cure ASTHMA, BRONCHITIS, LARYNGITIS and COUGHS. It will cure all diseases originating from want of MUSCULAR ACTION and NERVOUS FORCE.

BERLIN CONGRESS.

The Berlin congress will probably remain in session for several weeks. The questions submitted are encompassed by many intricate diplomatic difficulties, and in consequence the sittings are short and the consultations among the respective state delegates frequent. Bismarck presides with marked ability and great diplomatic discretion. He has sketched and presented a general plan for the arrangement of the pending questions, and led the congress face to face at the very outset with the subject matters of leading importance, e. g., the disposition of the issues appertaining to Bulgaria. An evidence of the stability of the European powers is plainly observed from the demand made by these nations that one shall not dominate over the other; nor shall one power, because of grievances, fancied or real, unduly punish his neighbor nation. The centralization of power is a mechanical idea, but the opposite or centrifugal influence constantly tends to create small state governments with quite independent local regime, and makes the individual civil liberty. These international conferences enlist interstate sympathy and respect, yet at the same time are inimical to that pure license which a strong municipality covets. But such Boards of the Powers have the effect to facilitate the conclusion, not only of just treaties, but also to give permanency, to ensure faithful observance of all treaty stipulations. They are powerful bodies and their decisions are vitally final. We may therefore look to a peaceable solution of the Eastern question by the Berlin congress, and that whatever it shall decide upon will be as law absolute governing the relations and future conduct of both Russia and Turkey.

GENERAL CONNER.

The editor of the *Journal* is pleased to call General Conner a carpet-bagger. We presume he delights in being alone in his opinion. General Conner is a gentleman of intelligence, a brave soldier and a man who has for many years been actively identified with the leading industry of this State. He would poll a heavy vote for the office of Governor, should he receive the nomination. He is said to be very popular in the eastern part of the State, and has an excellent record and reputation on this coast and in military circles of the United States.

EDITORIAL NOTES.

John W. Mackey is accredited with having advised his New York friends to "load up with bonanza stock," saying that in consequence of Colonel Fair's illness it had been his business to superintend the mines for the last two months. He stated that there was ore enough in sight in the California to pay the two dollars per share dividend for five months to come. He also alleged that as soon as the retimbering of the main shaft of the Con. Virginia was completed the payment of the dividend of two dollars per share a month would be resumed. If Mackay, whilst en route to Paris, gives points to the stock bulls of New York, and afterwards induces the loquacious Frenchman to invest in a few thousand shares of bonanza stock, we may look for a stiff stock market within forty days. The chances are ten to one that the above is very gauzy, slightly attenuated and thickly interspersed with holes.

For the purpose of catching the laboring vote of Nevada, it is suggested that the Democratic State Convention embody in its platform the following resolution: "Resolved, That so much of the nineteenth verse of the third chapter of Genesis as is contained in the following words, 'In the sweat of thy face shall thou eat bread till thou return into the ground,' be and the same is hereby repealed." In the language of Farmer Treadway, there would be nutriment in such a resolution as this.—*Enterprise*.

Is it possible that the editor of the *Enterprise* would hold that the members of the Workingmen's party are not hard day laborers, toiling for their bread? We have attended their meetings and there was certainly five per cent. of their number who have been known to actually do work semi-occasionally.

The Eureka *Republican* has passed

into the hands of the Board of Trustees of the *Republican Publishing Co.*, and Mr. Arthur McEwen has resigned his position as editor of that paper. We of course know nothing of the financial management of the late lessees, Messrs. Chantz & Watts, nor of their standing in Eureka, but we do regret that the ablest writer that has yet written on that paper has resigned his position, and the lately graced and spicy columns of the *Republican* may again reflect the tame production of some writer of the mediocre attainments.

One of the Reno papers misses no opportunity to "catch votes" for the new State prison at that point. It is getting to be dollars to doughnuts that no appropriation is made to complete Bradley's corral until Rene dumps all of its filth into the Truckee river.—*Eureka Sentinel*.

It is possible that there will be a Congressional aspirant dumped later in the season. Mr. Cassidy's record on the State prison business, however, cannot be complained of.

The *Silver State* makes complaint that the muskets recently sent from Carson are without ammunition, and therefore entirely useless, and that the Winnemuccaites have no bullets. It will now be in order for the State military authorities to lease a few moulds from General Howard, while he holds prayer meeting to soften the heart of the wily Bannock.

CONDENSED TELEGRAMS.

The Royal Hunt cup at Ascot, England, was won by Julius Caesar June 19th.

Senator Booth Tuesday forwarded to President Hayes an invitation tendered him by M. D. Boruck, in behalf of the California State society, to attend its agricultural fair next fall. A reply has not yet been received.

Border Affairs.

A party from the Rio Grande reports that General Canales, with about 300 regulars, impressed all the men and horses he could find in Piedras Negras, and started about 1 o'clock last night up the river to intercept Colonel Shafter, who crossed the river with his command night before last. It is reported that a courier from General McKenzie states that McKenzie is obliged to return to this side, owing to the scarcity of water. A courier was also sent out this morning to recall Colonel Shafter.

There seems to be a steady improvement in the appearance of the mines from Bodie Bluff all along the line to the Sigourney. With \$1000 ore in the Bodie and a 15-inch vein in the bottom of the Bechtel shaft, where, up to a few days since, that miserable horse was all that could be seen, there is every reason why the stock of these mines should be popular as they have been for the past few weeks.

The microphone having developed the fact that flies have a speech of their own, some one says it is indeed beautiful to hear a little fly, standing on the brim of a cream jug, remark to a matronly-looking person engaged in investigating one's left ear, "Mother may I go out to swim."

The Miners' Union picnic will be held at Treadway's ranch, Carson, on September 29th. The proceeds will be devoted to making additions to the library of the society. Now, Parkie, are they not little angles.

Fire at Sacramento.

At Sacramento, about half-past 10 o'clock on the evening of the 18th, a small building in the railroad yard and close by the depot was set on fire. The flames gained some headway in consequence of the city water being turned off at that moment for the purpose of making connection with some of the mains. An effort was made to turn a stream on from the yard hydrant, but the faucet was found to have been tampered with, having been driven in so tight that difficulty was had in removing it. The fire was extinguished by one of the yard engines. There is no clue to the perpetrators of the outrage. Luckily there was no wind at the time or the whole depot structure might have been destroyed.

There are more unoccupied houses in San Francisco than ever before known, and rents, in many localities have depreciated fifty per cent. below the rates of two years ago.

BANNOCK WAR NEWS.

Latest News from the Front.

News has been received confirming the hitherto reported burning of ranches in the Juniper lake and Stein mountain country. Burns', Bavidson's and Dixon's houses have been burned to the ground, and about 200 head of horses taken by the hostiles. The Indians are supposed to have gone toward Stein mountain, but no reliable news has been received of their whereabouts. All reports indicate that they are more intent on stealing stock than killing the settlers. The extent of their depredations or the number of murders committed west of the Winnemucca and Idaho road is not known. Nothing has been heard of Captain Wagner's force which left Camp Bidwell two weeks ago. It is feared that they have encountered a large body of Indians near Stein mountain and may have been defeated.

A Silver City, Idaho, dispatch of June 19th says: A messenger from Camp Harney reports serious Indian depredations in that vicinity. The party under Eagan have burned the Diamond ranch, in Happy valley, near Stein mountain. The Indians have captured over 400 horses. Thirty soldiers of the First Cavalry have gone there to render assistance and keep the savages from making further raids. The balance of the company will hold themselves in readiness to reinforce. More troops and supplies are greatly needed. French and Robie, with their employees, have been driven from Stein mountain. They report the mountains full of Indians; also report all their stock killed or driven off. Two men have been shot. The latest news from Colonel Bernard's command states that he has a howitzer and three companies of cavalry, and will be reinforced by McGregor before reaching Camp Harney. They are in hot pursuit of the Bannocks. General Howard has sent Grover and three companies of cavalry to Old's ferry to prevent the Bannocks going north. Canyon City and vicinity are being raided by the Indians, and a number of whites are reported killed.

The Indian War.

Silver State: Reports from the north indicate that the hostile Indians have left Idaho and are now raiding in southeastern Oregon. The Bannocks under Buffalo Horn probably number less than three hundred, but that is sufficient to hold an extent of territory two hundred miles square, which, though affording pasturage for thousands of cattle, does not average one white inhabitant to the square mile. Unless the Bannocks and renegade Nez Percés—some forty in number—who are reported to have joined them on the war path, are reinforced by the Malheur, Piutes and other tribes in Eastern Oregon, the number of troops now centering toward the infested region from every direction ought to end the war before August. Much, however, depends upon success in the first engagement between the troops and hostiles. So far the latter have met with no resistance. They have raided south from the lava beds through the Bruneau country, and from there west into Oregon, and possibly northwestern Nevada, without losing a man. In their skirmish with the Silver City Volunteers they achieved a victory without loss.

Footrace at Tuscarora.

Says the Tuscarora Times. Review of the 18th: A foot race for \$2,000 a side is on the tapis. Johnny Barrett received last Sunday night a telegram from parties in Reno, authorizing him to deposit \$300 forfeit money for a race of one hundred yards, to come off here on or before next Sunday, between a man to be named by the Reno parties and the stranger, the winner of the race last Sunday. Articles of agreement were drawn up and signed yesterday, and the race will doubtless come off. It is not known here who the stranger's contestant is, but he will have to be a flyer if he beats the time made by the mysterious runner last Sunday.

Good for the Railroad Company.

On Sunday, June 23d, and every Sunday hereafter until further notice, a special excursion train will be run between Virginia city and Steamboat Springs, stopping at all way stations. The train will leave Virginia city at 8:15 a. m. Gold Hill at 8:26, and arrive at Carson 9:50, at Bowers' Mansion, at 10:30. Returning, the train will leave Steamboat at 3:50, Bowers' at 4:10, Carson at 5, and arrive at Gold Hill at 6:23, and Virginia at 6:32. The fare for the round trip will be as follows: To Carson and return, \$1; Bowers or Steamboat and return, \$1 50. Children between 5 and 12 years, half of above rates. The tickets good on the Sunday excursion are train only.

Mrs. Robert Morrison, who resides about half a mile below Silver city, on the Dayton road, swallowed three-fourths of an ounce of laudanum, with suicidal intent. This was yesterday. The would-be suicide was pumped out.

STATE NEWS.

The superintendents of the Comstock mines have acceded to the demand of the Mechanics' Union that all skilled mechanics be paid not less than \$5 per day.

Two men, by the name of Clark and Garcia, concluded to shoot at each other in a Tuscarora saloon last Monday about a woman. Garcia was shot in the left wrist, and a young man named Geo. F. Colver, who was in no way connected with the difficulty, was fatally shot.

Carson Appeal: The coinage of the Carson Mint for the year now closing is as follows; double eagles, \$771,040 eagles, \$33,320, half eagles, \$82,320, trade dollars (coinage of trades discontinued in February last), \$410,000, silver standard dollars, \$1,114,000, half dollars, \$50,000, quarter dollars, \$810,000, dimes, \$229,000.
